

1. What is the Maybank2u SG app?

This is a Maybank mobile app which has been designed with a sleek interface, simple navigation and enhanced security to give our customers an exciting and refreshing mobile banking experience.

2. What are the features available in the Maybank2u SG app?

- A full suite of accounts, all in one place for viewing i.e. Current, Savings, Cards, Time Deposits, Loans and Wealth accounts
- Instant login to the app with fingerprint or Face ID detection
- App personalization and binding of device for tighter security
- Able to add new payee for Transfer and PayNow services
- Pay anyone with mobile number or NRIC using PayNow
- Make payment instantly by scanning PayNow QR Code
- Generate personalised QR Code to collect money from others
- Link to other Maybank Group apps i.e. Maybank MY, Treats SG, MKE SG app
- Able to activate newly issued or replaced security token

3. How do I use the Maybank2u SG app?

Upon download of the app, you are required to do a simple one-time setup. This binds the mobile device to your Maybank2u SG access i.e. username.

Sharing of app is not allowed with any other person. The app is solely for the customer's own use. The personalization of the app to the customer is part of a security feature to prevent unauthorized banking transactions.

4. How do I set up the Maybank2u SG app?

For existing Maybank Online Banking customers:	For non-Maybank Online Banking customers:-
a. Select 'Login to Maybank2u SG' b. Enter username (same username used when you login to Maybank Online Banking) c. Enter password (same password used when you login to Maybank Online Banking) d. Enter OTP (ie. either SMS OTP or Token OTP) e. You will receive the following invitation to register for:- <ul style="list-style-type: none"> • Face ID • Push Notification f. Upon completion, you will see the coach mark followed by the Dashboard	a. Select 'Login to Maybank2u SG' b. Select 'Sign up for Maybank2 SG' c. You will be redirected to the Maybank Mobile Banking registration process d. Follow instructions to nominate preferred username and password e. Once you have nominated your preferred username and password, go back to the app and select 'Login to Maybank2u SG' to proceed.

5. Who can use the Maybank2u SG app?

All existing Maybank Online Banking users (individual) would be able to use the app using their existing username and password.

6. Are there any charges for using the Maybank2u SG app?

The app is free for download at the respective authorized app stores. However, there are service charges levied for selected transactions such as Transfer to Maybank Malaysia (ie. S\$15 per transaction).

7. What is the minimum mobile device requirement to use the app?

To use the app, your smartphone must be

- a. Connected to the Internet
- b. Not jailbroken or rooted
- c. Running on the latest Apple iOS (11 and above) or Android Operating System (10 and above). We advise you to update your device's operating system (OS) and download the latest version of our app in order to minimise your risk of security threats and malware attacks.

8. How many devices can I bind to the same Maybank2u SG access (i.e. username)?

You can bind up to a maximum of 3 devices. If you have registered up to 3 devices, upon the 4th setup, you will be prompted to remove one of the devices. You can deactivate any of your current registered device through Settings > Registered Devices to register a new device.

9. I can't perform any transaction through the app. What should I do?

If you're facing problems with the app, please try one any one of these methods:

- a. Restart device - Many common download issues can be fixed by turning off, restarting device and re-try to download.
- b. Check data connection - strong Internet connection (Wi-Fi or mobile data) is required to use the app. Re-launch the app when Internet connection is good.
- c. Check the available storage of the device - If the storage space of your device is low, please uninstall other apps or delete items like pictures or videos to free up space. The problem could also be attributed to multiple suspended apps running in the background. This is known as multitasking and can use up a lot of the device's free memory. Try closing down unused apps to free up memory and resources.
- d. Clear cache & data - Clear cache and data on the App Store or Google Play Store application and try to download the app again.
- e. Remove and re-download the app.

10. I received an error message saying "Device not compatible" from Play Store when I tried to download the app. What should I do?

One possible cause for some devices, especially the lower end devices is that they have smaller than 50 MB cache partition size. For temporary workaround, you may want to try clearing PlayStore data from your device and re-installing the app. To do this, go to Settings > Application Manager > All > Google Play Store > Clear data.

11. Can I download the Maybank2u SG app in my iPad?

Yes, you are able to download the app in iPad. However, the Maybank2u SG app is not fully supported in tablet devices as at now. We advise that you use a mobile phone to enjoy the full features of the Maybank2u SG app.

12. Can I download the Maybank2u SG app in App Gallery?

No, Maybank2u SG app is only available in App Store for IOS devices or Google Play Store for Android devices.

13. My Android devices operating system is lower than version 9.0, what will happen if I do not update to the latest version operating system?

You will not be able to use or download Maybank2u SG app from the Google Play Store.

14. What are the services available in the Maybank2u SG app?
